

iPad 1 : 1 Adoption Programme 2021

At **Newcastle Academy** we are passionate about preparing our students for the future and giving them the best possible chances in life. It is clear to us that technology is becoming ever prominent in the world of work, with 90% of jobs now requiring ICT skills. With this in mind, we wish to fully embed technology into teaching and learning across the Academy.

Our 1 : 1 Adoption Scheme will be the catalyst for this for years to come! In partnership with trusted suppliers, our shared vision is one iPad for every student in Year 7 and in 2021 we achieved our initial vision of one iPad for every student in the Academy!

What is included? An iPad (9th generation), a case and insurance.

And most importantly a world of opportunity in class

Why get one? What are the benefits?

- **Improved motivation and engagement**
- Opportunities to work **creatively** within a subject, for example using video editing , drawing or music apps;
- Different ways to approach hard-to-learn/hard-to-teach concepts. **Bringing the topic to life;**
- Greatly **improved research** opportunities leading to better research skills;
- Significantly **enhanced revision** opportunities;
- Enhanced **family engagement** through the use of the devices at home.

All helping towards improved learning and progress

Stats from Newcastle Academy

99% of students & **100%** of parents agreed they **helped them enjoy** their learning more

96% of students & **100%** of parents agree that using them has helped them become **even more engaged** in learning

How do I sign up? Join us for our webinar and Q&A live on Zoom!

Tuesday 28th September @ 5pm

Education in the 21st Century. Students born since 2010 (Generation Alpha) are younger than smart phones, ipads and Instagram! Growing up with this technology means growing up with an unprecedented amount of available information and resources. Our 21st century education is about giving students the skills they need to survive in this new world. Digital integration into this education is about using the technology to benefit students to allow them to become creative, communicative, critical thinking and successful individuals
